CAREER OBJECTIVE

Motivated Mechanical Engineer with a strong interest in designing, modelling, and product development. Seeking an opportunity to apply CAD skills and engineering knowledge in a professional environment. Passionate about design tools, analysis methods, and eager to contribute to innovative projects while continuously learning and growing.

EDUCATION

SRK Institute of Technology <i>B.Tech in Mechanical Engineering</i>	2021 – 2024 CGPA: 70%
Divi Seema Polytechnic College, Avinigadda <i>Diploma in Mechanical Engineering</i>	2018 – 2021 CGPA: 78%

PROJECTS

Modelling and Analysis of Disc Brake Rotor Using Various Materials

- Designed 3D models and performed static and thermal analysis using Grey Cast Iron, AISI 6150 and Carbon Fiber Reinforced SiC materials.
- Compared stress, deformation, thermal stress and strain values across various materials.
- Identified Carbon Fiber Reinforced SiC as the best material due to its lightweight nature, low deformation and superior heat transfer properties.
- Improved practical knowledge of design engineering, analysis techniques and material selection.
- Enhanced understanding of braking efficiency and vehicle safety through engineering simulations.

Performance Testing of Thermal Power Plant

- Analyzed the performance of boiler, turbine, condenser and cooling tower systems.
- Studied plant efficiency, heat rate and operational behavior under varying load conditions.
- Learned methods for reducing losses and improving thermal power plant performance.
- Strengthened practical knowledge of power generation systems and plant operations.

EXPERIENCE

KIA Motors (NAPS) <i>Interior Fitting Trainee</i>	5 Months
– Worked in interior fitting and assembly operations within automotive manufacturing. – Gained hands-on experience with production processes and quality standards. – Collaborated with team members to ensure proper installation and finishing of vehicle interiors.	

TECHNICAL SKILLS

CAD Software: AUTOCAD , CATIA V5, 3D Designing ,Solid Works

Engineering Skills: Design, Modelling, Product Development, Thermal Analysis

Mechanical Concepts: Material Selection, Manufacturing Processes, Engineering Drawing

LANGUAGES

- English
- Telugu
- Hindi

INTERESTS

- Designing
- Technology and Innovation
- Learning new Technologies
- Cricket

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
